

COLO-PREVENT

A platform for developing COLOrectal cancer PREVENTion therapies

Welcome to our monthly newsletter. See what we have been up to this September, follow us on **Twitter** for updates and more!

PARTICIPANTS RANDOMISED

Great work from all our recruited sites on screening patients and **a big thank you** to all the participants taking part!

None of this would be possible without the work of all the different multidisciplinary teams working on this trial so everyone's effort is appreciated

We are still looking to identify **new sites** so please contact us if you are interested in running this trial at your site, or know of anyone that might be!

23

SITE UPDATE

Sites currently open to recruitment:

- **South Tyneside** District Hospital
- **Northumbria** Healthcare

LIPs submitted and in set up:

- Nottingham University Hospital
- University Hospital Lewisham

- The **CRF database** for the Main trial is in its **final end user testing stage!** We hope to roll out the database for site use by the end of next month
- We are in discussions with potential **couriers** to put a central account in place for sites to use as an option for **IMP delivery** to participants' homes

TRIAL UPDATES

PROTOCOL CLARIFICATIONS

Trial assessments table 1 - 'T= -2 weeks' on the pre-trial BCSP colonoscopy column is in reference to the timeframe for histopathology results to be reported. This is not a visit window for arranging the baseline visit. Please aim to schedule visit 1 as soon as possible after the screening colonoscopy (this timeframe is flexible); please contact us for further guidance

REMINDERS

We all forget things sometimes, here are some gentle reminders. Please get in touch if you require further support or have any questions.

- Complete **all relevant fields** in your **Screening Log**, in the **Excel** format or **provide a reason** by email if you are leaving missing data
- If a **randomised participant withdraws**, please **make a note of this** in your **Screening Log** free text column G rather than adding a number reason in column F

Please give us feedback and get in touch with the Trial Team at coloprevent@leicester.ac.uk

Don't forget to follow us on Twitter for the latest updates on the trial !
